Vanguard Research Industries (VRI) may provide a metal finishing service to your metal products. Providing that the metal products that we receive from you, the customer, (or your direct metal supplier, mill, etc.) meet the criteria for an “article” under REACH, the metal finish(s) that VRI apply to such products are exempt from pre-registration and registration under REACH, as a component of the article that would not be expected to be intentionally released as part of the design. In such case, the finishes that VRI supply are fully in compliance with REACH and all regulations there-under.
